

~ WILLIAMS HEARING ASSISTANCE SYSTEM ~

We offer the Williams Hearing Assistance System at our dances. The Williams is widely used in many places of worship, movie theaters, and has been used in the square and round dance activity for many years. Several clubs, as well as callers and round dance leaders now regularly provide the Williams System (or comparable) as part of their regular dance programs. You will need a receiver, if one is not provided for you to use.

— *Enjoy, and Happy Dancing*
